

### DOUBLE-SIDED BRAKE TRAINER NON-ABS 2006+ TOYOTA YARIS

The EM-123 2D double-sided two-wheel hydraulic brake system trainer is used to demonstrate the functionality of a typical hydraulic braking system as it operates on a real vehicle. The trainer is built with OEM components and is based on the Toyota Yaris non-ABS platform. This space saving double work station can be used in the classroom environment for demonstrations to students.

#### EDUCATIONAL ADVANTAGES:

- Demonstrates full functionality of a 2-wheel hydraulic brake system;
- Provides easy access to all brake components without the confinements of a vehicle;
- Many NATEF and Red Seal tasks can be accomplished using this trainer;
- All brake system components are accessible for complete mechanical and hydraulic repair and service;
- Space saving double work station;
- Provides two separate 2-wheel braking systems each with its own master cylinder and pedal.

#### APPLICATION:

- Non-ABS Toyota Yaris, 2006+
